

## ROZELLE HANSEN

Rozelle considers herself a lifelong learner. She began her formal education at the University of Western Australia in languages and continues her studies in political science, French, and Spanish at UVU. A mother of five and grandmother of three, Rozelle's top priorities are faith and family—the source of her greatest joy. She has been a homeschooler since 2003 and has loved learning alongside her children and watching them grow into independent learners and contributing adults. Her youngest daughter currently attends Merit and homeschools part time. Rozelle began her professional career 40 years ago in Australia where she worked in musical theatre and television. Most recently she has used her love of singing and songwriting to create a series of videos to teach young children on various topics through music and has released her first album of original songs with two more in the works. She is excited to join the Merit Academy family and to work to help make the educational experience the best it can be for each student.
